De 2o quod universale et intencio differunt. Intencio autem 2a in abstracto est ipsa concepta quidem rei in relacione ad plura supposita et hec est formale in [illegible] et [illegible] in hijs [illegible]

Utrum tota ars logicalis sit habitus scientificus rationalis analogice vel univoce unus

Arguitur primo quod partes eius sint modi sciendi [illegible] non est scientia sed logica est modus sciendi ergo logica non est scientia. Maior patet dicit [illegible] quia modus rei non est res [illegible] quod absurdum est [illegible] querere scientiam et modum sciendi [illegible] patet per Aristotelem 2° metaphysice qui dicit quod [illegible] modum sciendi [illegible] logica [illegible] est [illegible] non est scientia realis [illegible] de [illegible] esse [illegible] ergo logica est scientia realis. Tertio dicitur quod [illegible] subiectum logice non est aliqua unitas [illegible] ergo logica non est scientia aliqua unitas una [illegible] quod [illegible] scientia una [illegible] propter quod subiectum logice non est unum [illegible] ergo non unitas est [illegible] **In oppositum** [illegible] ad omnes partes [illegible] sit omnes logice. In questione erunt tres articuli. In primo declarabitur [illegible] questionis. In 2° videbitur ad questionem. In 3° movebuntur aliqua dubia. In primo articulo sunt 3a [illegible] declarandi. Primum est scientia sive habitus [illegible] 2° est logica [illegible] que sit scientia realis et quod sit scientia una.

Sciendum est primo et pro declaratione [illegible] est [illegible] potentie scilicet intellectus et voluntas. [illegible] quod anima sit [illegible] in ea sit due [illegible] potentie. Unde intellectus est potentia qua anima est intelligere. Voluntas vero est potentia qua anima est potens velle. Et ex ista distinctione [illegible] subiectum scilicet intellectus. Secunda distinctio est quod [illegible] aliqui [illegible] ut intellectus aliqui [illegible] et sunt sex scilicet simplicium apprehensio per quam formatur diffinitio. Secundo est apprehensio [illegible] divisio per quam fiunt [illegible] est [illegible] et divisio [illegible] per quam fiunt [illegible] per quam fiunt [illegible] sive [illegible] est [illegible] per quam fiunt [illegible] per quam fiunt [illegible] Et istorum [illegible] ponuntur. Et a 3° [illegible] scilicet a [illegible] intellectus [illegible] est virtus anime intellectualis [illegible] Et ex ista distinctione [illegible] per quem [illegible] scientia. **Tertia distinctio** [illegible] aliquis est [illegible] est ille qui [illegible] sine [illegible] aliquis est [illegible] Unde habitus [illegible] aliquid [illegible] ad [illegible] expedite operandi. Et ex ista distinctione [illegible] scilicet habitus [illegible]

Quarta distinctio [illegible] aliquis est [illegible] et est [illegible] in [illegible] subiective aliquis est [illegible] subiective. **Quinta distinctio** [illegible] aliquis est intellectualis. Et est [illegible] qui non est subiective in intellectu aliquis voluntarius sive moralis et est qui est subiective in [illegible] morales. **Sexta distinctio** [illegible] intellectualis aliquis est [illegible] est dicere verum et errorem [illegible] sicut dispositio aliquis est [illegible] ut scientia aliquis est qui possunt [illegible] verum et falsum ut opinio. **Septima et ultima distinctio** [illegible] intellectualis [illegible] est dicere falsum aliquis est [illegible] et scientia [illegible] aliquis est intellectus et [illegible] aliquis est scientia et [illegible] per [illegible] argumentum [illegible] ars [illegible] Et est [illegible] a nobis [illegible] aliquis est prudentia [illegible] a nobis agibilium. **Ista distinctio** [illegible] sit [illegible] per [illegible] habitus intellectualis [illegible] ut est 3a [illegible] et intellectus [illegible] scientia

Vel circa operabilia. Et sic est sapientia. Et circa contingentia, et hoc dupliciter: vel circa agibilia, et sic est prudentia, vel circa factibilia, et sic est ars. **Argumentum secundo**

pro declaracione sit hinc quod logica ponitur tres divisiones logice [illegible] differentias. Prima divisio est: logica dividitur in logicam naturalem et artificialem. Logica naturalis est quaedam naturalis potentia intellectus nostri, quia naturaliter magis assentit vero quam falso, ex uno assensu procedit de noto ad ignotum [illegible]. Logica artificialis est habitus acquisitus quo mediante de veritate cognoscimus. Secunda divisio est quia logica artificialis dividitur in logicam iudicativam sive resolutoriam et inventivam. Logica iudicativa sive resolutoria est quae docet resolvere [illegible] in sua principia vel habitus demonstrativa. Sed logica inventiva est quae docet invenire multa media ad probandum unam conclusionem, ut est scientia argumentandi. Tertia divisio: logica dividitur in logicam utentem et docentem. Logica utens est habitus ex frequenti actuum acquisitus. Et ista non est scientia specialis et ab aliis distincta. Alia est logica docens. Et sunt ex 3 differentiis. Prima est differentia Alberti dicit quod logica est quae a scientiis quae videntur [illegible] determinat. [illegible] Et luminare patet in omni opere exemplarium. Secunda est differentia Boecij dicit: logica est scientia deserviens [illegible]. Tertia differentia Thome dicit: logica est scientia rationalis dirigens actum rationis. **Argumentum tertio**

Utrum sciencia logicalis sit de secundis intencionibus

Arguitur quod non. Quia sola sciencia realis considerat de secundis intencionibus. Sed logica non est sciencia realis. Igitur logica non considerat de secundis intencionibus. Antecedens patet quia intenciones secunde sunt res reales cum sint intellectus vel obiecta intellecta. Secundo de contingentibus non est sciencia. Sed sic intenciones sunt contingentes, quia de eis non est sciencia. Patet per philosophum sexto [illegible] dicentem quod sciencia est necessariorum et incorruptibilium aliter se habencium. Minor patet quia sic intenciones essentialiter dependent ab intellectu qui est causa contingens et voluntaria. Tercio arguitur sic: intenciones non sunt intelligibiles [illegible]

[illegible]

In oppositum [illegible]

[illegible]

Dicam primo [illegible]

[illegible]

Dicam secundo [illegible]

[illegible]

Intentiones abstractive sunt intellectiones sive actus intellectus. Modo omnes actus intellecti sunt entia realia. Item patet, quia sic intentio est intellectio, ut visum est, modo intellectiones sunt qualitates actus immanentes [illegible] in [illegible] [illegible]. Secunda [illegible] sunt in [illegible] et [illegible] esse [illegible] que sunt in intellectu [illegible] et [illegible] Tercia difficultas. Qualis est ista [illegible] [illegible] [illegible] et ipsius. Ad quod [illegible] quod est denominativa. Et sensus est [illegible] humana est intellecta in pluribus [illegible] modo [illegible] est [illegible] quod [illegible] est denominatio [illegible] est denominativa denominatione [illegible] sicut [illegible] denominans [illegible] subiecto in denominato [illegible] lapis est visus [illegible] et [illegible] denominans [illegible] in lapide subiecto [illegible] in intellectu. Et [illegible] [illegible] [illegible] intentio sive intellectio [illegible] de obiecto intellectu. Quarta difficultas est. Cum [illegible] intentiones sint intellectiones reales [illegible] [illegible] [illegible] quod [illegible] [illegible] de ipsis sit [illegible] [illegible] [illegible] realis. Ad quod [illegible] quod sic intentiones [illegible] [illegible] de [illegible] [illegible] intellectus [illegible] effectum [illegible]. Et sic sunt [illegible] [illegible] [illegible] [illegible] ad [illegible] [illegible] [illegible] [illegible] [illegible] ad obiecta denominata [illegible]. Et sic [illegible] [illegible] sit [illegible] [illegible] quod ipse intentiones [illegible] quod [illegible] [illegible] obiecti [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] de ipsis [illegible] [illegible] realis.

Sequitur tercio

Et quia [illegible] de [illegible] esse de [illegible] realibus quod [illegible] est [illegible] [illegible] de [illegible] [illegible] [illegible] obiectum cognitum. Ad quod intelligendum supponitur primo quod obiectum cognitum [illegible] esse [illegible] intentionale [illegible] [illegible] [illegible] aut esse intentionale aliud esse quod [illegible] cognitum est in cognoscente [illegible] aliud [illegible] quod [illegible] [illegible] et formaliter [illegible] [illegible] intellectum [illegible] esse [illegible] [illegible] actum anime intellectivi. [illegible] [illegible] [illegible] actum realem [illegible] ut [illegible] [illegible] [illegible] est [illegible] ad [illegible] realem et ad [illegible] in [illegible] [illegible] ab [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] ad [illegible] realem [illegible] [illegible] [illegible] [illegible] ad [illegible] [illegible] [illegible] quod anima intelligit [illegible] [illegible] [illegible] ad esse cognitum [illegible] ad esse [illegible] [illegible] [illegible] aliud obiectum esse in [illegible] [illegible] cognitum in cognoscente. Secundo supponitur quod [illegible] est actus intellectus [illegible] est [illegible] que obiectum [illegible] et [illegible] [illegible] [illegible] [illegible] [illegible]. [illegible] [illegible] actus quo intellectus intelligit [illegible] [illegible] [illegible] [illegible] [illegible] actus [illegible] quo obiectum cognitum [illegible] ad aliud ut actus quo [illegible] cognitum [illegible] [illegible] [illegible] ad multa [illegible]. Et [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] est [illegible] [illegible] [illegible] [illegible] [illegible] ad [illegible] [illegible] [illegible] in obiecto cognito et [illegible] ad aliud [illegible] obiecto subiecto [illegible] [illegible] intellectus [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] est [illegible] [illegible] [illegible] intellectus [illegible] [illegible] [illegible] [illegible] [illegible] cognitum ad multa [illegible]. Et [illegible] intentio est obiectum cognitum vel cognoscibile [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]

Secundo ponitur alia logica est de secundis intentionibus [illegible] aut ab alteri gata per o[illegible] unde illa [illegible] quod se non [illegible] [illegible] [illegible] [illegible] [illegible] ad [illegible] actum

Dubitatur primo [illegible] intentiones sint in intellectu subiective vel in re cognita. Respondetur secundum primam opinionem quod secunde intentiones in abstracto sunt subiective in intellectu quia sunt intellectiones [illegible] intellectus [illegible] que est subiective in intellectu. Alia [illegible] quod [illegible] intentiones sunt relationes [illegible] [illegible] primo fundamento obiectum cognitum sunt esse quod habent in anima. [illegible] sunt subiective in obiecto cognito quod [illegible] subiective in suo primo fundamento et [illegible] est in [illegible] subiective

Dubitatur secundo [illegible] secunde intentiones sunt relationes reales vel rationis. Respondetur quod sunt relationes rationis [illegible] [illegible] primo quia [illegible] dependent ab intellectu [illegible] [illegible] quia [illegible] primum fundamentum obiectum cognitum [illegible] [illegible] sunt [illegible] [illegible] esse cognitum in anima [illegible] [illegible] obiectum sunt aliud esse [illegible] [illegible]

Dubitatur tertio [illegible] secunde intentiones [illegible] [illegible] ab intellectu [illegible] ad quod [illegible] quod [illegible] quod [illegible] obiectum [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] actus [illegible] [illegible] quod [illegible] [illegible] actum [illegible] [illegible] [illegible] [illegible] [illegible] quod [illegible] [illegible] [illegible] per quem cognoscitur [illegible] [illegible] intentiones [illegible] actus [illegible] intellectus per quem [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] actum intellectus reflexum per quem cognoscuntur. [illegible] ad actum [illegible] [illegible] actus [illegible] intellectus [illegible] [illegible] [illegible] actum [illegible] actus [illegible] [illegible] [illegible] [illegible] [illegible] reflexum

Ad [illegible] [illegible] [illegible] Respondetur quod [illegible] [illegible] [illegible] [illegible] que possunt intelligi [illegible] actu simplici et non [illegible] [illegible] [illegible] per actum [illegible] et actu reflexo

Dubitatur primo utrum omnis operatio elicita vel imperata a
voluntate sit praxis. Ad hoc respondetur quod non sed sola elicita vel operatio
sequens electionem que est actus proprie ab intellectu operativo est vere praxis
[illegible] sequitur primo non omnis operatio agentis naturalis est praxis quia nulla
[illegible] sunt electionem. Sequitur secundo quod [illegible] operatio intellectus non est
praxis quia intellectus est extensive ad ipsum sed practica ergo sola operatio ad

Tertio sequitur quod differentia [illegible] non est [illegible] in qua [illegible] praxis est operatio alterius

Utrum illud quod denominatur [illegible] intellectu [illegible] vere existit extra intellectum tam in universalibus quam in singularibus. Arguitur primo quod non, quia [illegible] quod [illegible] non est [illegible] secundo [illegible] quod non est [illegible] quia [illegible] aliquid et [illegible] actionis [illegible] non [illegible] est [illegible] aliud et [illegible] non [illegible] quod [illegible] situm autem [illegible] est [illegible] realis extra intellectum et in singularibus [illegible]

In oppositum est [illegible] realis. In ista questione erunt tres articuli sicut in precedentibus [illegible]

Quantum primo [illegible] ad declarationem [illegible] questionis et terminorum que [illegible] ponuntur tres distinctiones. Prima quod aliquid potest esse in intellectu dupliciter. Primo obiective sicut cognitum est in cognoscente [illegible] omne aliud potest esse in intellectu quod per aliquam actionem intellectus potest ab eo cognosci. Alio aliquid dicitur esse in intellectu subiective et [illegible] Et hoc dupliciter. Primo sicut effectus in causa [illegible] et [illegible] et actus intellectus sunt in intellectu [illegible] Alio [illegible] effectus in [illegible] et collative et [illegible] sunt in intellectu [illegible] esse extra intellectum [illegible] esse in intellectu [illegible] ad propositum [illegible] et tertio. Quantum secundo [illegible] in ista [illegible] Porphyrius [illegible] et [illegible] movet Porphyrius tres questiones a quibus [illegible] Prima est utrum genera et species subsistant sive sint in solis nudis [illegible] posita. Secunda est utrum ipsa subsistencia sint corporalia vel incorporalia. Tertia est utrum separata sint a sensibilibus vel in sensibilibus posita. Quantum tertio [illegible] Porphyrius movet istas questiones [illegible] et [illegible] et aliis [illegible] Primo quia [illegible] et species [illegible] magis videntur subsistere quam alia. Secundo quia [illegible] ab [illegible] Tertio [illegible] duas [illegible] subiective et [illegible] est in individuis [illegible] Prima istarum questionum [illegible] esse [illegible] aliud [illegible] quarta [illegible] Tertia [illegible] ad [illegible] intellectus [illegible] per [illegible] non [illegible] aliqua [illegible] sunt in intellectus [illegible] non intelligit per fantasmata intellectu [illegible] opiniones [illegible] realium [illegible] nominalium et [illegible] realium

Secunda opinio vocatur est eorum qui dicti sunt peripatetici quorum principes fuit aristoteles qui dixerunt universalia existere extra omnem intellectum sed in singularibus. Quarta opinio nominalium fuit eorum qui dicti sunt terministe quorum principes inter est [illegible] qui dixerunt universalia esse voces vel terminos ad placitum significantes res singulares. Quinta opinio fuit realium qui dixerunt universalia plurimum [illegible] esse [illegible] in intellectu per [illegible] et hic de primo [illegible] ad [illegible] **Conclusio** non tantum voces aut conceptus aut [illegible] sunt universalia sed extra intellectum realiter existunt [illegible] prima pars [illegible] [illegible] universale est [illegible] et causa [illegible] non sunt voces conceptus aut [illegible] universalia non sunt voces conceptus nec [illegible] secunda pars patet quia universale [illegible] omnem actum intellectus [illegible] est [illegible] intellectum [illegible] quia universale est obiectum intellectus non obiectum est causa [illegible] actus [illegible] [illegible] ad [illegible]

secundo dico quod licet forma partis et forma totius sit idem realiter distinguuntur

[illegible] non est totum compositum quia omne totum compositum est hoc aliquid
[illegible] non est hoc aliquid ut forma partis quia non forma partis et predicatur

[illegible] esse [illegible] [illegible] abstrahit ab utraque

Dubitatur secundo utrum universale quod reperitur hic esse in singularibus quia in sensibus particularibus vel in intellectu sit idem in omnibus singularibus ita quod hec humanitas reperta hic sit in quolibet homine. Ad hoc dicitur primo quod universale potest considerari dupliciter uno modo quantum ad actum suum qui est dici de singularibus [illegible] et [illegible] et sic reperitur esse in singularibus quia sic non est nisi in intellectu. Alio modo potest considerari universale quantum ad quidditatem suam que sunt simplicitas et indivisibilitas etc. et sic reperitur esse in sensibus particularibus quia in sensibus singularibus est [illegible] reperitur unde est quod aliquis nature participatur. Secundo dicitur quod universale est una [illegible] quidditas que est indivisibilis et ubi est tota est

Dubitatur tercio utrum universale manens unum in multis in sensu in sui primum realem et in intellectu sit in intellectu nostro. Ad hoc videtur albertus primo quo ad [illegible] sicut idem huius receptum in corde [illegible] et in [illegible] similiter albertus quod universale est in intellectu nostro [illegible] sicut patriam realem [illegible] aliud est in intellectu nostro quod remanet abstracta materia [illegible] quod remanet est universale quod universale est in intellectu nostro [illegible] sicut primum realem

sicut vis animalis dos ut leges animalis legum. sed animalis passio In quarta probatur

quia iste sunt qualitates quia secundum eas dicuntur quales ut secundum triangulationem
aliquid dicitur triangulare et secundum quadrationem quadrangulare aliquid dicitur quadrangulare
[illegible] et secundum rectitudinem aliquid dicitur rectum et secundum curvitatem dicitur curvum. Hic
secundo [illegible] removet unum dubium quia aliquis posset dubitare quod ista que
videntur [illegible] aperte et levia sunt qualitates. Removet dubium et dicit quod illa

[illegible] quod opposita sunt, et [illegible] [illegible] sunt

[illegible] quod [illegible] sunt [illegible] [illegible]

[illegible] opposita [illegible] est sicut a [illegible]

[illegible] fiat [illegible] in sensus [illegible] forma et materia

esse et [illegible] in hoc [illegible] et [illegible] dicit

quod [illegible] essentia esset [illegible] materia non solum sit [illegible]

rei planum est quod [illegible] per [illegible] sua cognoscibilis est et in se

ordinatur [illegible] materia [illegible] cognoscibilis [illegible] est [illegible]

[illegible] ad [illegible] ad se ordinatur [illegible] etc. solum quod [illegible]

est in actu [illegible] forma [illegible] essentia [illegible] opposite dicit

[illegible] hic quid [illegible] essentia est id [illegible] diffinitio

rei significatur. Diffinitio autem substantiarum naturalium non tantum formam continet
sed etiam materiam; aliter enim diffinitiones naturales et mathematice non different.
Nec potest dici quod materia in diffinitione substantie naturalis ponatur sicut
additamentum essentie eius vel sicut ens extra essentiam eius, quia hic modus di-
finiendi proprius est accidentibus que perfectam essentiam non habent. Unde oportet quod
accidentia in diffinitione sua subiectum recipiant quod est extra genus eorum. Patet
ergo quod essentia comprehendit materiam et formam. Non autem potest dici quod essentia significet
relationem que est inter materiam et formam vel aliquid superadditum ipsis, quia
hoc de necessitate esset accidens et extraneum a re, nec per eam res cognosceretur,
que omnia essentie conveniunt. Per formam enim que est actus materie
materia efficitur ens actu et hoc aliquid. Unde id quod superadvenit non dat
esse actu simpliciter materie, sed esse actu tale sicut accidentia faciunt ut
albedo facit esse actu album. Unde quando talis forma adquiritur non dicitur
generari simpliciter sed secundum quid. Relinquitur ergo quod nomen essentie in substantiis composi-
tis significat illud quod est ex materia et forma compositum. Et huic con-
sonat Boetius in commento predicamentorum ubi dicit quod usia si-
gnificat compositum. Usia enim apud grecos est idem quod essentia apud
latinos ut idem dicit in libro de duabus naturis. Avicenna etiam
dicit in v metaphysice quod quiditas substantiarum compositarum est ipsa compo-
sitio materie cum forma. Et Commentator etiam dicit super VII metaphysice: Na-
tura quam habent species in rebus generabilibus est aliquod medium id est compo-
situm ex materia et forma. Huic etiam ratio concordat quia esse

concordat, quia esse subiecti compositi non est tantum esse forme nec tantum
materie sed compositi. Essentia autem una quam res dicitur esse unum
est ut essentia a qua res denominatur esse ens, non tamen sit forma
necessario tamen materia, sed utriusque terminus [illegible] esse [illegible] suo modo
sola forma sit causa. Sic enim in aliis videmus quod [illegible] plures partes
corporis constituuntur et quod res non denominatur ab alio illorum par-
tium tantum, sed ab eo quod utrumque completur, ut in saporibus quia
ex actione caloris agentis humidum [illegible] dulcedo, et quamvis hic
modo calor sit causa dulcedinis, non tamen denominatur res dulce a
calore, sed a sapore qui calido et humido completur. Quod autem indi-
viduacionis principium materia est ex hoc forte videtur, saltem quia essentia
que in se materiam simul et formam complectitur est universalis et non
ulterius ex quo sequitur quod ulterius non habent differentiam essentia [illegible]
quod per differentiam complectitur. Et non sunt nisi materia vel quolibet modo accepta
principium individuacionis sed solum materia signata. Et dico materiam signa-
tam que sub dimensionibus certis consideratur. Hec autem materia in diffinitione hominis
non ponitur in quantum homo, sed poneretur in diffinitione Sortis si Sortes haberet
diffinitionem. In diffinitione autem hominis non ponitur materia signata, sed enim
in diffinitione hominis ponitur hec os et hec caro, sed os et caro absolute
quod est materia hominis non signata. Sic ergo patet quod essentia hominis et Sortis
non differt nisi secundum signatum et non signatum. Unde Commentator dicit super
[illegible] methaphisice: Sortes nichil aliud est quam animalitas et racionalitas que
sunt quidditas eius. Sic etiam essentia generis et speciei secundum signatum et non signatum

dicit Omnis alius modus designandi sit utrumque quia designatio individui rei presentis est per materiam determinatam dimensionibus divisi omnibus designatio autem presentis rei compositi est per determinatas circumstantias que a forma ei sunt Item designatio que est in esse rei est non est talis in alia presenti subsistentis ita quod ultimo ita quod ultimo sit extra compositum Immo quod est in esse vel est in esse ut non determinata per

continui indistincte. Dico uel et ad quod est ista intentio
individuo quia quod significat totum illud quod tantum est in
individuo licet indistincte et hec non tantum facit significationem non
homines quia hoc a facit intentio. Si autem significet non solum
in concreto sine designatione quod est pars individualitatis sic scilicet
licet per modum partis et hec non significat nomen quantitas quantitatis
sit illud unde hoc et hoc ita nullo [illegible] a consideratione
hec licet quod sit hoc [illegible] quantitas in sua natura includat
tamen ea quibus hoc licet quod sit hoc. Patet quod significatio eius
includit sine qua [illegible] materia determinata designata. Et quod patet non
propter hoc sua ratio est quod quantitas ut ab hac ut a suo principio
unde dicit Avicenna quod quantitas continui non est principium [illegible]
quantitas continui quod ipsa quantitas quanta sit quantitas licet quanta
[illegible] in hac est sed hoc uno quod sit recepta a quibus quod sit
non signata [illegible] ut dictum est designatio solum [illegible]
in concreto sine determinatione [illegible] soli et sit per materiale
[illegible] tantum sed [illegible] et post materia [illegible] ad solum
illud unde sunt non solum in concreto non designata sit pars sui
Et de quantitate sit ut forma quod [illegible] quod forma tantum [illegible]
separata [illegible] sed forma et non sed forma [illegible]
separatur [illegible] cuius [illegible] materia et forma quod materia
est [illegible] sed per materiam et formam [illegible] in concreto [illegible]
per quem nata est non designatio sic [illegible] quod [illegible] sunt
hec [illegible] hoc et hec [illegible] quantitas [illegible] ut dictum est quod
hec [illegible] hoc sit [illegible] ut [illegible] hoc non [illegible] designatione

Et implicite continet eam et distincte, sicut dictum est quod genus continet
differentiam, et ideo predicatur hoc nomen homo ab individuis. Sed hoc nomen humanitas
significat eam ut partem, quia non continet eam in sua significatione nisi illud quod est
hominis in quantum est homo et precidit omnem designationem; unde ab indi-
viduis hominibus non predicatur. Ex quo hoc est hoc nomen essentie invenitur quandoque
predicatum de Sorte, dicimus enim Sortem esse essentiam quandam, et quandoque nega-
tur, sicut dicimus quod essentia Sortis non sit Sortes.

Viso igitur quid significetur in substantiis compositis nomine essentie
videndum est quomodo se habeant ad rationem generis, speciei et differentie.
Quia autem id cui convenit ratio generis vel speciei vel differentie predicatur de hoc singulari
signato, impossibile est quod ratio universalis vel generis vel speciei conveniat essentie
secundum quod per modum partis significatur ut nomine humanitatis vel animalitatis. Et
ideo dicit Avicenna quod rationalitas non est differentia sed differentie principium. Et eadem
ratione humanitas non est species nec animalitas genus. Similiter non potest dici quod
ratio generis vel speciei conveniat essentie secundum quod est quedam res
existens extra singularia ut Platonici ponebant, quia sic genus et species non
predicarentur de individuis; non enim potest dici quod Sortes sit hoc quod ab eo
separatum est, nec tamen separata essentia adducit nos in cognitionem singu-
laris. Et ideo relinquitur quod ratio speciei vel generis conveniat essentie secundum quod significatur
per modum totius ut nomine hominis vel animalis, prout implicite et indistincte
continet totum hoc quod in individuo est. Natura autem vel essentia sic accepta
potest dupliciter considerari. Uno modo secundum rationem propriam, et hec est absoluta consideratio ipsius.
Et hoc modo nihil est verum de ea dici nisi quod convenit sibi secundum hoc quod
huiusmodi est. Unde quecumque aliorum attribuuntur sibi, falsa erit attributio. Verbi

homini enim in eo quod homo est convenit rationale et animal et alia que in diffinitione
cadunt. Album vero et nigrum et quicquid huiusmodi quod non est de ratione
humanitatis non convenit homini in eo quod homo. Unde si queratur utrum
ista natura sic considerata possit dici una vel plures, neutrum concedendum
est, quia utrumque est extra intellectum humanitatis et utrumque potest accidere
ei. Si enim pluralitas esset de intellectu eius, nunquam posset esse una
cum tamen sit una secundum quod est in Socrate. Similiter si unitas esset de intellectu
vel ratione eius, tunc esset una et eadem Socratis et Platonis nec
posset multiplicari in pluribus. Alio modo consideratur secundum esse quod habet
in hoc vel in illo, et sic de ipsa aliquid predicatur per accidens ratione eius
in quo est, sicut dicitur quod homo est albus quia Sortes est albus, quamvis hoc non
conveniat homini in eo quod est homo. Hec autem natura duplex habet esse, unum
in singularibus et aliud in anima, et secundum utrumque
consequuntur dictam naturam accidentia. Et in singularibus etiam habet multiplex esse secundum
singularium diversitatem, et tamen ipsi nature secundum suam primam considerationem, scilicet abso-
lutam, nullum istorum esse debetur. Falsum enim est dicere quod
essentia hominis inquantum huiusmodi habeat esse
in hoc singulari, quia si conveniret homini inquantum est homo
nunquam esset extra hoc singulare. Similiter si conveniret
homini inquantum est homo non esse in hoc
singulari, nunquam esset in eo. Sed verum est dicere quod homo non inquantum
est homo habet quod sit in hoc singulari vel in
isto vel in anima. Patet ergo quod natura hominis
absolute considerata

abstrahitur a quolibet esse, ita tamen quod non fiat precisio alicuius eorum.
Et hec natura sic considerata est que predicatur de individuis omnibus.
Non tamen potest dici quod racio universalis conveniat nature sic accepte,
quia de racione universalis est unitas et communicabilitas;
nature autem humane neutrum horum convenit secundum absolutam
consideracionem. Si enim communicabilitas esset de in-
tellectu hominis, hoc inconveniens accideret: ubicumque humanitas inve-
niretur, communicabilitas, et hoc est falsum, quia in Sorte non invenitur communi-
tas aliqua, sed quidquid est in eo est individuatum. Similiter
etiam non potest dici quod racio speciei vel generis accidit nature huma-
ne secundum esse quod habet in individuis secundum unitatem ut sit quid unum
omnibus conveniens, que tamen racio universalis exigit. Relinquitur
ergo quod racio generis vel speciei accidit nature humane secundum illud esse quod
habet in intellectu. Ipsa enim natura humana in intellectu habet
esse abstractum ab omnibus individuantibus, princi-
piis, et ideo habet racionem uniformem ad omnia
individua que sunt extra animam, prout
est equaliter similitudo omnium du-
cens in omnium cognicionem in-
quantum sunt homines. Et ex hoc quod talem
relacionem habet ad omnia indivi-
dua intellectus adinvenit racionem

specierum et attribuit ... Unde dicit Commentator in primo de
anima intellectus est qui agit universalitatem in rebus / hoc
etiam dicit Avicenna in sua metaphysica quod omnis universalitas
est ab anima / Et quamvis haec natura habeat rationem universalis
secundum quod comparatur ad res extra animam quia est una simi
litudo omnium rerum tamen secundum quod habet esse in hoc intel
lectu et in illo tunc est quasi species quaedam intellecta / Et ideo
patet defectus Commentatoris in 3o de anima qui voluit ex
universalitate formae intellectae unitatem intellectus in omni
bus hominibus concludere quia non est universalitas illius formae
secundum hoc esse quod habet in intellectu sed secundum quod refertur ad res et ut
est similitudo rerum Sicut etiam si esset una statua corporalis
repraesentans multos homines constat quod illa ymago vel statua
haberet esse singulare et proprium secundum quod habet esse in hac materia sed haberet
rationem communitatis secundum quod esset commune repraesentativum plurium

sua / Et quia naturae humanae secundum absolutam considerationem convenit
quod praedicetur de pluribus et tamen species non convenit
sibi secundum absolutam considerationem sed est de accidentibus quae consequuntur
eam secundum esse quod habet in intellectu ideo nomen speciei non praedi
catur de Sorte ut dicatur Sortes est species quod tamen de necessitate accideret
si ratio speciei conveniret homini secundum esse quod habet in Sorte vel secundum
suam absolutam considerationem scilicet in quantum est homo quicquid enim
convenit homini in quantum est homo praedicatur de Sorte / Et tamen

Quam causam substantias separatas nominat ab omni materia et
transparant [illegible] Causa dicit Damascenus potissima est
[illegible] intellecti que in celo est. Videmus enim formas
esse non intelligibiles in actu nisi quoniam quod separantur a materia
et a condicionibus eius. Sed efficiuntur intelligibiles in actu
[illegible] sub intellectus quoniam quod [illegible] et quoniam
quod [illegible] agimus [illegible] intellectus sua [illegible]
sit omnino immutabilitas, ita quod necesse habeat materia necesse
[illegible] sui ut [illegible] forma sui ut [illegible] solus materia
libus. [illegible] quod [illegible] non impediat
materia quoniam forma corporalis [illegible] Si enim hoc esset [illegible] quoniam
Corporalis [illegible] materia non [illegible] corporalis nisi quoniam
quod stat sub forma corporali, [illegible] materia impedire
intelligentie a forma corporali et hoc non potest esse, quod ipsa forma
corporalis [illegible] actu intelligibilis est, sed et alie forme quoniam quod
materia abstrahuntur. Non in [illegible] intelligentia [illegible]
est opposito [illegible] et forma [illegible] accipiat [illegible]
eius [illegible] corporalibus [illegible] esse et forme
[illegible] in Commento [illegible] dicit [illegible]
[illegible] est huius forma et esse et [illegible] ibi forma [illegible] ipsa
[illegible] sui non fuerit et quod hoc sit planum est [illegible]
Attendendum enim [illegible] huius admirationis quod unde causa
[illegible] aliquibus [illegible] esse [illegible]
alio [illegible] non [illegible] enim [illegible] habitudo [illegible]

Et forme quia forma dat esse materie, et non contra.

Impossibile est esse aliquam materiam sine forma aliqua, et non

est impossibile aliquam formam sine materia esse.

Forma enim in eo quod est forma non habet dependentiam ad materiam, sed si

inveniantur alique forme que non possunt esse nisi in materia, hoc

accidit eis secundum quod sunt distantes a primo principio quod

est actus primus et purus. Unde ille forme que sunt

propinquissime primo principio sunt forme per se subsistentes

sine materia. Non enim forma in toto ~~genere~~ toto

genere suo materia indiget, ut dictum est, et huiusmodi forme

sunt intelligentie. Et ideo non oportet quod essentie vel quidditates harum

substantiarum sint aliud quam ipsa forma. In hoc ergo differt

quidditas substantie composite et substantie simplicis, quod quidditas substantie composite

non est tantum forma sed complectitur materiam et formam, essentia

autem substantie simplicis forma tantum. Et ex hoc causantur due differentie

alie. Una est quod quidditas substantie composite potest significari ut

totum et ut pars, quod accidit propter materie designationem ut dictum

est. Et ideo non quolibet modo predicatur quidditas rei composite de

ipsa re composita. Non enim potest dici quod homo sit quidditas sua.

Sed quidditas rei simplicis que est sola forma non potest significari nisi

ut totum, cum nichil sit ibi preter formam quasi formam

recipientem. Et ideo quocumque modo sumatur quidditas substantie simplicis

predicatur de ea. Unde Avicenna dicit quod quidditas simplicis rei est

ipsummet simplex, quia non est aliquid aliud recipiens.

capitulum/ Secunda dicta est quod materia rei composite
eius quod recipit in se quantitatem designatam multiplicatur
per divisionem eius in eadem specie unde contingit quod
aliqua sint eiusdem speciei et diversa numero quia in substantiis
materia cum sit recepta in quantitate ideo potest esse ubi
multiplicatio [illegible] in illis
species plura individua eiusdem speciei sed quae sunt
sine materia tales sunt species ut angelica species
ubi dicit commentator [illegible] ad quia sunt forme
sine materia non tamen eius est omnimoda
simplicitas nec sunt actus puri sed habent permixtionem
potentie/ hic est pars secunda in qua [illegible]
[illegible] quod [illegible] est [illegible]
[illegible] non [illegible] quae [illegible] sine [illegible]
[illegible] [illegible] [illegible] [illegible]
[illegible] sine hic [illegible] aliquid [illegible] suo actuali/
Possumus enim [illegible] est [illegible] ad [illegible] [illegible]
[illegible] esse [illegible] in [illegible] ergo [illegible]
est ad materia [illegible]/ [illegible] sit aliqua res [illegible]
[illegible] sit [illegible] esse [illegible] potest esse [illegible]
et [illegible] quod [illegible] est quod fiat pluralitas [illegible]
per additionem [illegible] [illegible] [illegible] [illegible]
[illegible] [illegible] hic [illegible] [illegible] [illegible]
[illegible] [illegible] [illegible] in individuis [illegible]

Vel per hoc quod unum est absolutum et aliud in aliquo
receptum, sicut si esset quidam color separatus esset alius
a colore non separato ipsa sua separatione. Si autem
poneretur aliqua res quae esset esse tantum ita ut ipsum esse
sit subsistens, hoc esse non recipit additionem differentiae
quia nomen quod esset esse tantum sic etiam propter hoc forma
prima et materia numquam recipit additionem nisi quia ipsum
esse non subsistens. Similiter receptum esse ab aliquo
unde relinquitur quod res talis quae est suum esse non potest esse
nisi sit una. Unde oportet quod in qualibet alia re praeter illam
aliud sit esse suum et aliud quidditas vel natura seu forma
sua. Unde oportet quod in intelligentiis sit esse praeter formam. Ideo dictum
est quod intelligentia sit forma et esse. Omne quod convenit alicui
vel est causatum ex principiis naturae suae sicut risibile in homine vel
advenit ex principio aliquo extrinseco sicut lumen in aere ex influentia
solis. Non autem potest dici quod ipsum esse sit causatum ab
ipsa ~~causa~~ forma vel quidditate rei. Dico autem sicut causatum ab
ipsa forma a causa efficiente quia tunc esset aliqua res sui ipsius
causa et aliqua res se ipsam in esse produceret quod est impossibile.
Ergo oportet quod omnis res cuius esse est aliud a natura sua habeat
esse ab alio. Et quia omne quod est per aliud reducitur
ad illud quod est per se sicut ad causam primam. Oportet ergo quod
sit aliqua res quae sit causa essendi omnibus rebus eo
quod ipsa est esse tantum; aliter iretur in infinitum in causis

Cum omnis res que habet suum esse tamen habeat etiam suum
esse ut dictum est, scilicet secundo quod miseria est forma et per esse
quod suum esse a forma a primo ente quod etiam est tamen hec
est forma [illegible] quod est deus. Omne autem quod recipit aliquid
ab aliquo est cum pena velut corpus actus, hec quod re-
ceptum est cum eo est actus eius ergo secundo quod ipsa caritas
cum forma quod est miseria sit pena vero esse quod a
deo receptum est et id esse receptum est per modum actus
vero corporis et ita conveniunt pena et actus cum
corporis intellectus [illegible] tamen gratia et forma [illegible] corpus
recipere et pati [illegible] esse et dicta hominis dicit quod videntur illis
[illegible] [illegible] convenire esse conveniunt [illegible] intellectualibus et
[illegible] spiritualibus [illegible] corporalibus cum in [illegible] 3o de anima
de Commentator. Et quia cum dictum est [illegible] caritas
est comparatur [illegible] et [illegible] caritas vel forma vel [illegible] eius

Forma in scientiis aliquid est sic que prima forma

diversis dicimus hic ut forma que forma sic non
